Track

HUGE R/C Circuit is an on-road indoor facility with an asphalt surface. The race track size is 60 x 30 meters. The arched roof is 7 meters high at the side and 10 meters high in the middle. Suitable for both EP and GP on-road car scales including 1/8, 1/10, 1/12. The 18-meter-long drivers stand ensures adequate space and comfort for every driver.

The roof covering is metal sheeting with 20% transparent material providing adequate natural daylight during the day. Extra lighting is not normally required during the day but with the covered circuit and lighting this ensures an all-weather track that can be used to race on into the evening if required with no rain delays.

Facilities, we are divided into three main buildings. First building consists with pit area, R/C store, food / beverage. Second building consists with 8 VIP rooms with air con, 18 meters long driver stand, Time keeper control room, Car inspector area, 4 rooms of toilet each Males and females also one bathroom each. And the third building have 7 VIP rooms with air-con.

On the first building, 6 R/C store are available for all player and visitor who interest on R/C. There is NO SMOKING in the Pit & Paddock area and also Driver's Stand. Smoking is allowed only outside building on the smoking areas.

The paddock areas are 15x25 meters with tables and chairs. Can be support more than 150 drivers in case we put more tables and chairs on the drift track. Air Compressor and water sink for cleaning up your body shell and chassis are available.

Second building, 8 VIP rooms are for racers who are interested in renting to sit with cool daily, monthly and yearly. The HUGE long driver stand could allow players to choose their perspective to be properly enforced. 3x4meters car

inspector area and same size of time keeper room. Also press room are on this building

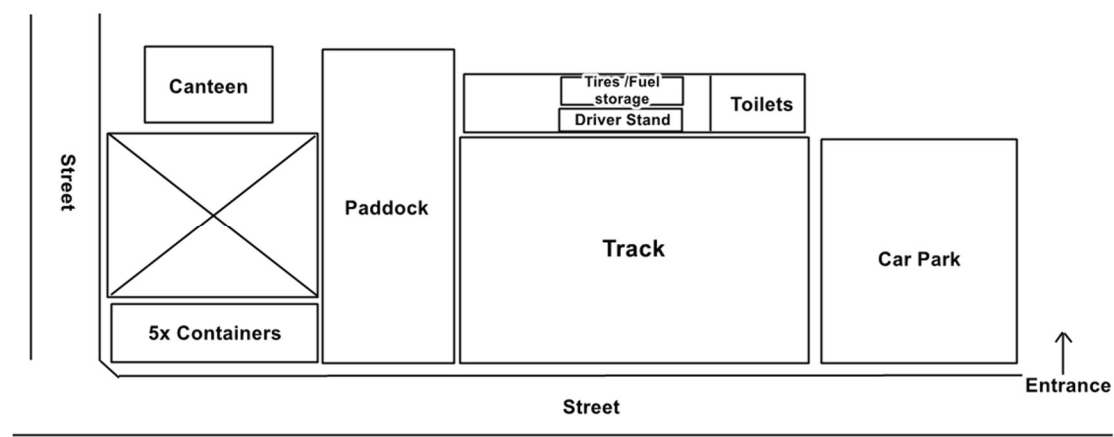

Third building, 7 big VIP rooms were created for driver who needs private area separate from race track.

Car park, we have parking space in front and also lot of space behind of the track which total over than 1200 squaremeter with asphalt/cement surface to park the car. This could be accommodating approximately 100 cars.

Track Map:

Rules

Race will follow 2024 IFMAR Rules. Check the IFMAR webpage for updates and muffler / body list. Updated rules for the event should be ready by the end of August.

TRANSMITTERS (Approved Frequencies)

1. All radio-controlling devices shall only use the frequencies permitted in this country.
2. Use of 2.4GHz frequency band is allowed

LAP COUNTING and TRANSPONDERS

Each participant is responsible for attaching a My Laps RC4 compatible transponder to their car during the whole event, including practice.

RCM (Race Control Management) will be used for the event timing and will be available to the media for live timing to the web.

Fuel

Controlled fuel will be used for this event. See IFMAR rules 2024. There will be 2 choices for the event which must be chosen in your entry form. Changing the fuel brand is limited and depends on the availability.

The fixed amount for the race event is 45 USD (approx. 1600,- Thai baht). Additional fuel for the practice is available in cans of 4.5 liter and will cost 1100THB per can.

Administration of Fuel

All fuels in their necessary quantities will be brought in at the venue in 4L production cans as sold in the market (and not of a unique quality specifically formulated for the event) prior to the event, which will be administered by the Organizer. All fuels then will be repackaged into 20 smaller bottles for each

brands, and grouped into 10 bottles each to be handed out for pit crews, for drivers of the heat immediately following and for refills.

Distribution of Fuel.

Drivers are given their own choice of fuels. Fuel bottles will be handed out to pit crews upon entering the tires preparing area (where one-way traffic is enforced) and will be collected by the Organizer after the race for refilling. In case of fuel supply shortage, additional fuels may be brought in the same administration manner as described in the previous section above under IFMAR's supervision.

MATRIX will be the controlled tire brand for all drivers on this event. See IFMAR rules 2024. A lot of testing has been done the last 2 months for tire diameter, due to the high traction.

Tire Specification

Front Shore 50 Diameters. 56 mm

Rear Shore 50 Diameters. 58mm

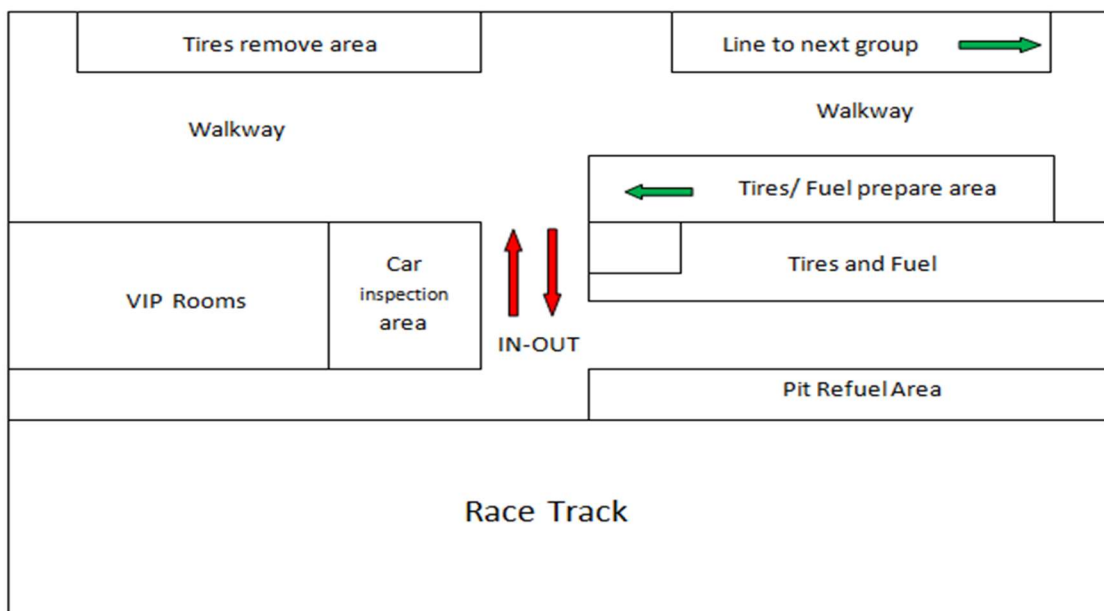

Minimum of 8 sets tires required for the actual race event (Start from timed practice, Qualifying and first final) must be paid in cash at registration. Additional sets needed for those who move up during the finals need also to be paid in cash.

Tires for the first days of the event, IPD and controlled practice need to be ordered with the entry and paid upon arrival at the track. **All payments** in local currency (Thai baht).

The price per set is 650 Thai Baht

Distribution of Tires

Tires package will be handed out to pit crews upon entering the prepare area (where one-way traffic is enforced) and drivers or pit crews must return them to storage after car finish inspection.

Concours

There will be a Concours d'elegance for the best paint-job.

Other information

Each contestant will be allocated pit tables (approx. 60x120cms.) chairs and AC 220v available. It is necessary to bring your own connectors and 12V DC power supply. Please note: That the space is limited for driver, should you have an extra mechanic kindly use same area allocated to the driver.

Food & Beverages

In-House kitchen (Local foods) is available, including drinks and snacks. Starting from the 16th to the 23th November. Also available are several apps now in

Bangkok that you can order food for delivery at the track, such as Pizza, KFC, McDonald or Oishi (Japanese) available.
